

Accessing and Using Clatsop County Webmaps

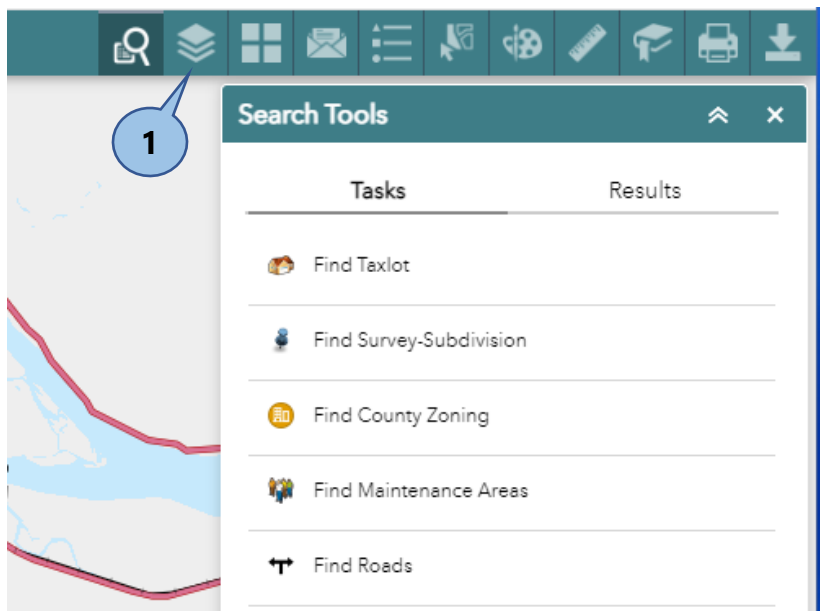

1. Visit the website at this URL:
<https://delta.co.clatsop.or.us/apps/ClatsopCounty/index.html>

2. Click **OK** to acknowledge the disclaimers. You will now see a general map of Clatsop County.

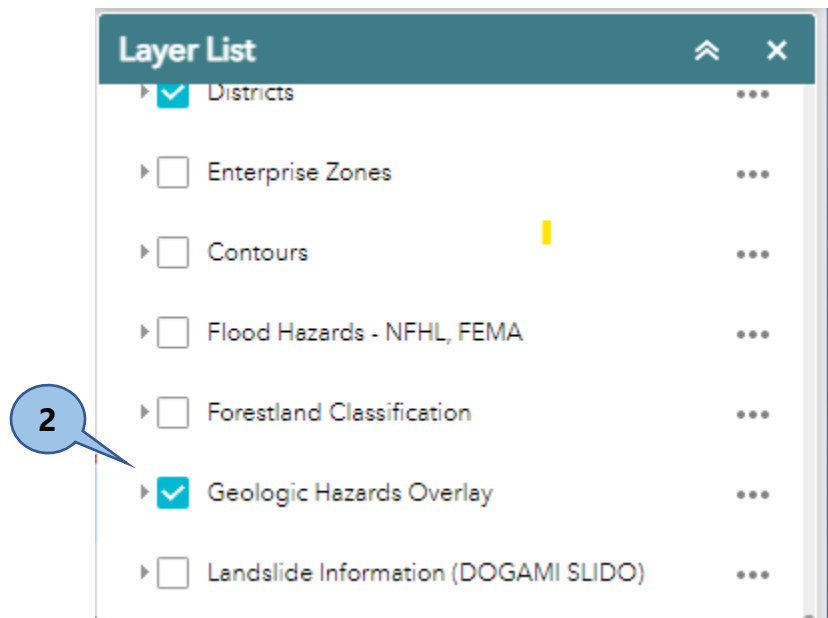

To enable the display of the Geologic Hazards Overlay layer for the map

1. Click the **Layer List icon** in the upper left corner of the map.

A Layer list will be displayed along the right side of the screen.

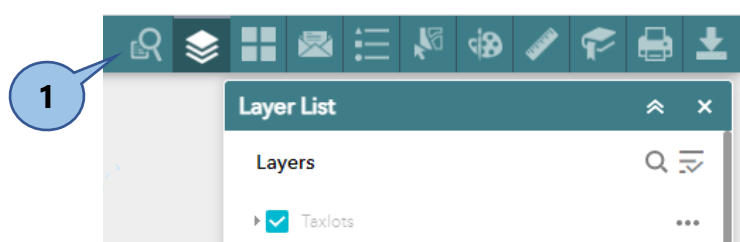

2. Scroll down in the Layer list until you can see the Geologic Hazards Overlay name. Click in the **checkbox** to the left of Geologic Hazards Overlay.

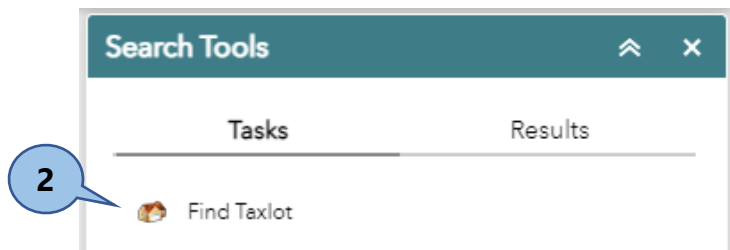

The new overlay appears on the map.

To locate a particular address on the map to evaluate possible hazards

1. Click on the **Search Tools icon** in the upper right portion of the map. The Search tools panel replaces the Layer List panel on the right side.

2. Click **Find Taxlot** as the search task.

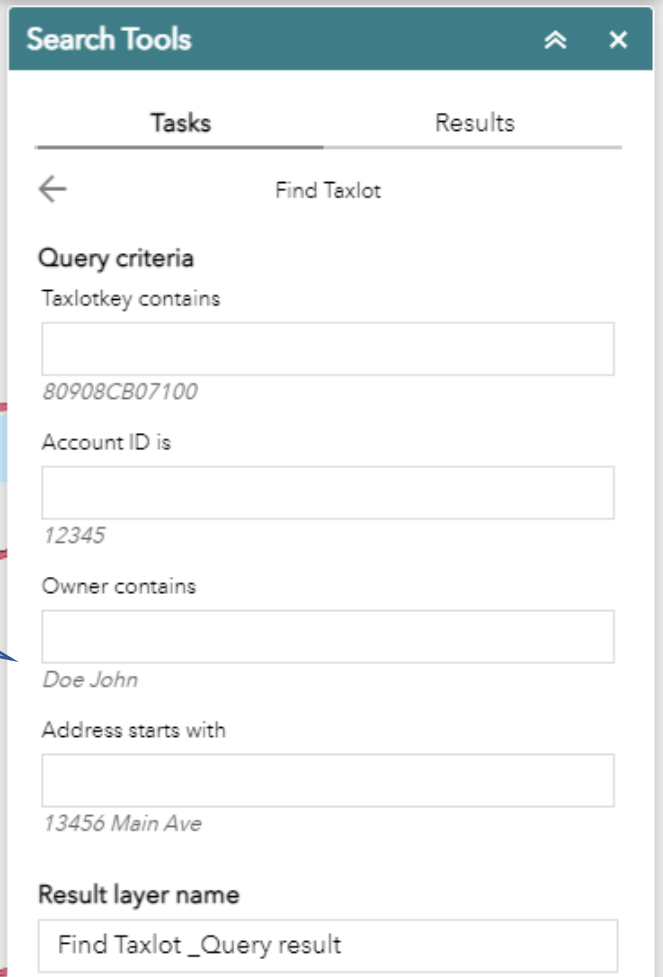

The Search Tools panel appears again with fields that can be used to identify the taxlot of interest.

The screenshot shows the 'Search Tools' panel with the 'Tasks' tab selected. A back arrow icon is visible on the left. The task 'Find Taxlot' is listed. Below the task, there are several query criteria fields, each with a text input box and a sample value:

- Query criteria**
 - Taxlotkey contains: 80908CB07100
 - Account ID is: 12345
 - Owner contains: Doe John
 - Address starts with: 13456 Main Ave
- Result layer name**
 - Find Taxlot _Query result

3. Enter the **Owner Name** or **address** of interest and.

The screenshot shows a 'Search Tools' window with a teal header and a close button. It has two tabs: 'Tasks' and 'Results'. Under the 'Tasks' tab, there is a back arrow and the text 'Find Taxlot'. Below this is a section titled 'Query criteria' with four input fields. The first field is labeled 'Taxlotkey contains' and has the value '80908CB07100'. The second field is labeled 'Account ID is' and has the value '12345'. The third field is labeled 'Owner contains' and has the value 'Doe John'. The fourth field is labeled 'Address starts with' and has the value '13456 Main Ave'. At the bottom, there is a 'Result layer name' field with the value 'Find Taxlot _Query result'. A blue callout bubble with the number '3' points to the 'Owner contains' input field.

4. Click the green **Apply** button at the bottom of the list.

The associated taxlot will appear on the map (you may wish to zoom out for a better view). Any color under the taxlot outline indicates the property is part of whatever layers you have displayed
